Create your Valentine - Chamomile invented by the employee of our site the [www.asreda.com](http://www.asreda.com). Let your beloved tear off the petals - Loves not loves. Believe me, such a postcard she will like and remember! You can download and print the finished card on the printer. If you wish, you can make an application using the option number 2. For this you need colored paper.

### INSTRUCTIONS FOR ASSEMBLY POSTCARDS. Print the finished card. Option number 1.

1. Print on a color printer from the «Print Ready» postcard option file.
  2. Cut along the contour of the card itself. Then the template details «Basis». The «Basis» part template is needed to stroke it on colored cardboard. The heart should be strong. In the process of cutting the petals of chamomile (loves - does not love).
  3. Circle the «Base» part template on the back of the colored cardboard and cut the part.
  4. Glue the postcard on the back side of the cut out template of the detail «Base» and put it under the press.
  5. Sign the postcard with a blue pen on the image of a red heart or with feedback.
- Make cuts along the dotted lines on the left and right near the chamomile core.

Good luck!
