Craft - Russian Zmey Gorynych.
DO-IT-YOURSELF!

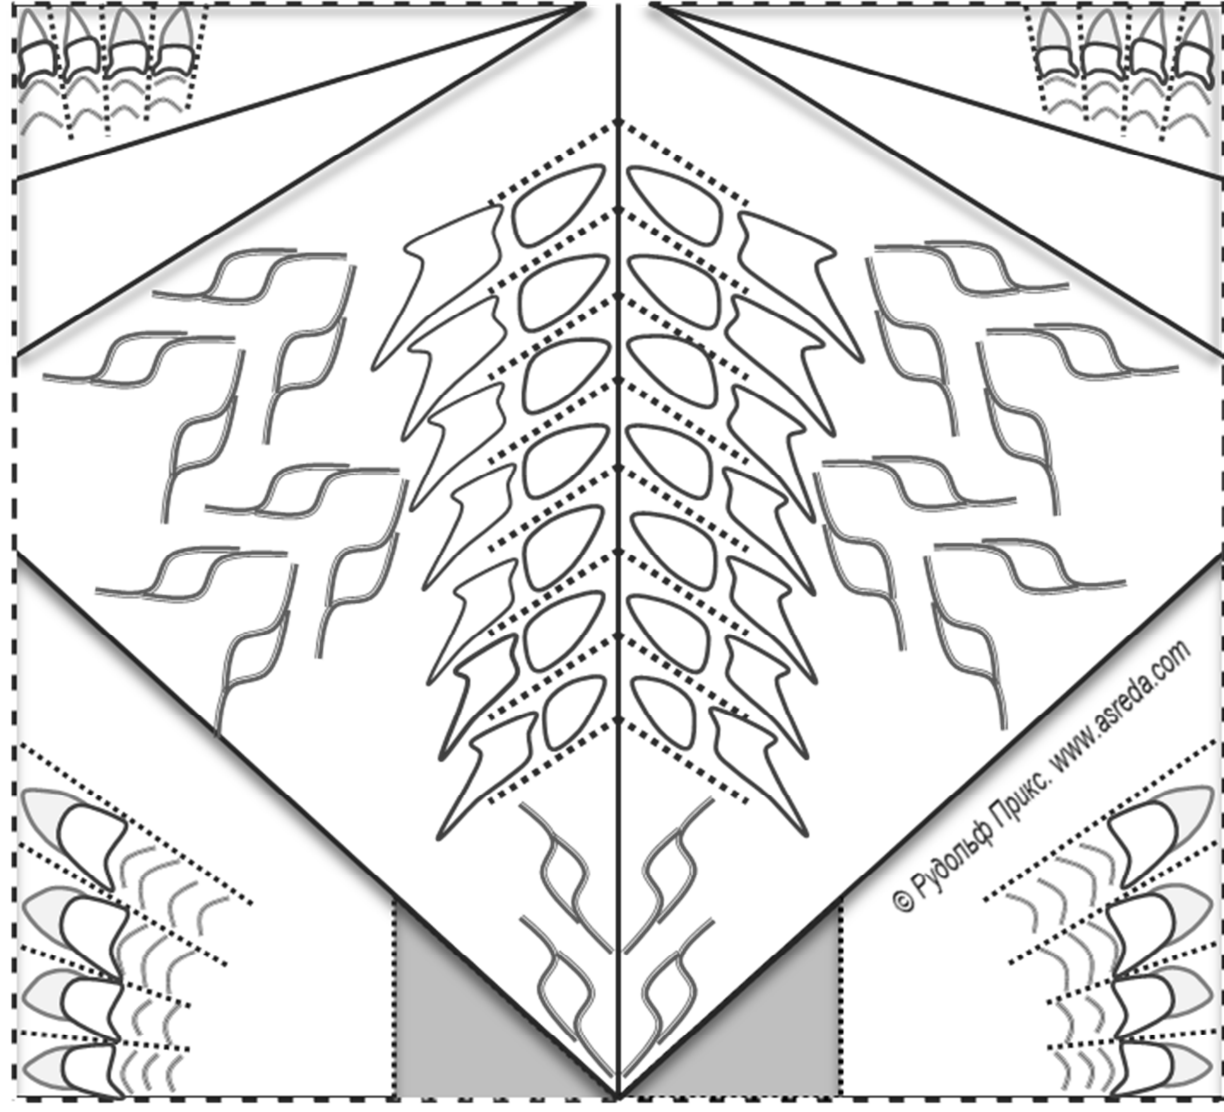

Hello, all lovers of fairy tales!

Meet the Russian dragon Zmey Gorynych. Our Gorynych has three heads. The snake lived in the mountains. One head was a drunkard, the other - a liar, the third - a thief. Vasilisa Clever learned about Gorynych, regretted him and decided to re-educate Zmey Gorynych. Gorynych's educational process was interrupted by her fiance Ivan who came and chopped off the uneducated heads of the serpent, and then he said to Vasilisa: "You must stop teaching three idiots born by one bastard. There are thousands of uneducated people in the villages. Teach them!" So, Vasilisa Clever began to teach kind Russian children. That is why, a kind Russian person has kind and smart fairy tales.

I made one file of Zmey Gorynych craft for you. It needs to be colored, cut, folded and glued. Two files with details in Russian (colored and for colored paper) are made in the same way. In the topic of the publication there is a video and a photo-master class of Zmey Gorynych crafts, just look at them to understand how to make the craft.

Believe, it is easy. The craft can be done by a child from five years old. I wish you all the best. Good will save our world. Stop treating each other like snakes, let's be human.
